CODE: The code is an easy way for you to tailor your lessons to your client. When a client comes in early in her pregnancy, you can give her the lessons in order. However, if a client smokes, you will want to address that first. The lessons are coded so you can see, at a glance, which ones are only applicable at a certain point in pregnancy and which ones are applicable anytime.

The code has two letters, a slash (/) and then two more letters.

Example: PN/FT

The two letters before the / determine if the lesson is applicable before or after birth:

PN - Pre-Natal

AB - After Birth

The two letters after the / indicate whether the lesson is specific to a certain point in the pregnancy or is applicable anytime. They are as follows:

SC - Special Circumstances

AT - Anytime

FT - First Trimester

ST - Second Trimester

TT - Third Trimester

NB - Newborn

3M - 0 to 3 Months

6M - 4 to 6 Months

9M - 7 to 9 Months

1Y - First Year and Beyond

Choose the lessons that make most sense for your client right now. Lessons do not have to be taken in order and can be used to address the most important areas in your client's life. Also, consider looking at the lessons with your client and finding out what they are interested in learning.
